Iowa Voter Survey Potential Democratic Caucus Attendees January 19-21, 2020

Overview

This report contains the results of a Civiqs survey of 590 potential Iowa Democratic Caucus attendees from January 19-21, 2020. The survey was conducted online, among selected members of the Civiqs research panel. Sampled individuals were emailed by Civiqs and responded using a personalized link to the survey at civiqs.com.

Respondents who answered that they "definitely will not attend" the Iowa Democratic Caucus, or replied "I am not a Democrat" in Question 1 were screened out of the rest of the survey.

The survey results are weighted by age, race, gender, education, party identification, and congressional district to be representative of the population of potential Iowa Democratic Caucus attendees. Demographic data, including self-reported party identification, was collected in previous Civiqs surveys. The general design effect due to weighting is 1.4. The survey has a margin of error of $\pm 4.8\%$ at the 95% confidence level, accounting for the design effect. All survey results in this report are reported as percentages.
