METHODOLOGY

METHODOLOGY

METHODOLOGY

Leger - the largest Canadian-owned polling and marketing research firm – conducted this Web survey with a representative sample of **1,202 Americans**, of which **1,041** are registered voters, over the age of 18, selected from LEO's (Leger Opinion) representative panel. The questionnaire consisted of 25 questions and was completed in 10 minutes on average. Data collection took place between **August 4 to August 7, 2020**, via Computer-Assisted Web Interviewing technology (CAWI) and the margin of error is **± 2.8%, 19 times out of 20**. Using 2016 Census reference variables, the data was then analyzed and weighted by our statisticians according to gender, age, language spoken, region, education level and the presence of children in households in order to render a representative sample of the general population.

For comparison purposes, a probability sample of this size would have a margin of error. The results presented in this study comply with the public opinion research standards and disclosure requirements of CRIC (the Canadian Research and Insights Council) and the global ESOMAR network. Leger is a founding member of CRIC and is actively involved in raising quality standards in the survey industry. President Jean-Marc Léger is a member of the CRIC's Board of Directors and the Canadian representative of ESOMAR.

Leger is the polling firm that has presented the most accurate data, on average, over the last ten years in Canada. During the last federal election in 2019, Leger was once again the most accurate firm in the country. This accuracy is attributed to the quality of the LEO panel and rigorous application of methodological rules by Leger's 600 employees, including 200 professionals in Leger's eight offices across Canada (Montreal, Toronto, Quebec City, Winnipeg, Calgary, Edmonton and Vancouver) and in the United States (Philadelphia).

Poll aggregator 338Canada.com gave Leger the highest rating among all polling firms in Canada for the accuracy of its studies. See <https://338canada.com/pollster-ratings.htm>

Federal Elections 2019		
Federal Parties	Leger Survey	Official Results

BQ	8%	8%
Green	6%	7%
PPC	2%	2%

METHODOLOGY

Notes on Reading this Report

The numbers presented have been rounded up. However, the numbers before rounding were used to calculate the sums presented and might therefore not correspond to the manual addition of these numbers.

In this report, data in bold **red** characters indicate a significantly lower proportion than that of other respondents. Conversely, data in bold **green** characters indicate a significantly higher proportion than that of other respondents.

A close-up, shallow depth-of-field photograph of a person's hand holding a white document or folder. The background is blurred, showing horizontal wooden slats. A semi-transparent grey bar is at the bottom, containing the title text.

DETAILED RESULTS

US POLITICS

VOTING INTENTIONS FOR THE 2020 U.S. PRESIDENTIAL ELECTION

Q6. If the 2020 presidential election were held today, would you vote for Donald Trump, Joe Biden, Jo Jorgensen, Kanye West or Howie Hawkins?

In the event that a respondent had no opinion, the following follow-up question was asked:

Q7. Even if your choice is not made yet, who would you most likely vote for at the 2020 presidential election between Donald Trump, Joe Biden, Jo Jorgensen, Kanye West or Howie Hawkins?

Base : Respondents Registered to Vote in the U.S. Presidential Election who intend to vote

■ AMONG REGISTERED VOTERS (n=1,019) ■ AMONG DECIDED VOTERS (n=943)

VOTING INTENTIONS FOR THE 2020 U.S. PRESIDENTIAL ELECTION – DETAILS

Q6. If the 2020 presidential election were held today, would you vote for Donald Trump, Joe Biden, Jo Jorgensen, Kanye West or Howie Hawkins?
