AMBER INTEGRATED

This survey was conducted from October 22-25, 2020 and included a pool of 500 likely voters in Oklahoma's 5th congressional district. These survey results were weighted based on age, gender, party affiliation, level of education, and geography using Amber Integrated's proprietary likely voter model. This survey has a margin of error of 4.38% at a 95% confidence interval. The poll surveyed both cell phones and landlines and used a combination of live callers and an online panel of likely voters.

If the election for president were being held TODAY, for whom would you vote? (If already voted) Confidentially and for statistical purposes only, for whom did you vote?
