205. Statement A says that it is clear that the Afghan government forces were not up to the task of defeating the Taliban, that about one third were already abandoning the cause, and that the US simply could not stop the inevitable takeover by the Taliban. Statement B says that the US made a commitment to the people of Afghanistan, that US military and civilian personnel suffered casualties, and that progress was being made bolstering the Afghan government. The US should honor its commitment and stay. Which is closer to your view?
