These results are based on responses from 1,701 Americans collected between August 30th and September 5th via the Premise smartphone application. Premise used stratified sampling of its opt-in panel members, along with post stratification weighting based on the American Community Survey to provide a representative sample. These results are weighted by Age, Gender, Region, and Education.

	Are recent natural disasters a result of human caused climate change or a result of natural weather patterns?					Political party that would do better handling climate change and the environment				
	Total	Mostly a result of human caused climate change	A mix of both	Mostly a result of natural weather patterns	Don't know	Total	The Democratic Party	Neither	The Republican Party	Don't know
On Wednesday Hurricane Idalia made landfall in Florida's Apalachee Bay as a category 3 storm with 125 MPH winds. This is the first recorded major hurricane to hit this area of the Gulf of Mexico. Additionally, earlier this month Hawaii experienced massive wildfires which caused over 100 deaths and unprecedented damage. Do you believe these destructive events are a result of human caused climate change or a result of natural weather patterns?
