These results are based on responses from 1,701 Americans collected between August 30th and September 5th via the Premise smartphone application. Premise used stratified sampling of its opt-in panel members, along with post stratification weighting based on the American Community Survey to provide a representative sample. These results are weighted by Age, Gender, Region, and Education.

	Gender			Age Group						Party Identification				Level of Education							Registered Voter				Ethnicity					Interest in Politics

These results are based on responses from 1,701 Americans collected between August 30th and September 5th via the Premise smartphone application. Premise used stratified sampling of its opt-in panel members, along with post stratification weighting based on the American Community Survey to provide a representative sample. These results are weighted by Age, Gender, Region, and Education.

On Wednesday Hurricane Idalia made landfall in Florida's Apalachee Bay as a category 3 storm with 125 MPH winds. This is the first recorded major hurricane to hit this area of the Gulf of Mexico. Additionally, earlier this month Hawaii experienced massive wildfires which caused over 100 deaths and unprecedented damage. Do you believe these destructive events are a result of human caused climate change or a result of natural weather patterns?

As part of the Inflation Reduction Act passed last year, Medicare will begin to negotiate with drug manufacturers to lower the prices of certain prescription drugs. This week the Biden administration released a list of the first 10 common prescription drugs that Medicare will target for negotiation. Do you support this policy?

These results are based on responses from 1,701 Americans collected between August 30th and September 5th via the Premise smartphone application. Premise used stratified sampling of its opt-in panel members, along with post stratification weighting based on the American Community Survey to provide a representative sample. These results are weighted by Age, Gender, Region, and Education.
