Trump Clings to .6% Lead in 2-Way Contest Against Biden, and 1% in a 5-Way Trial Ballot Question Post Conviction

(Slotkin 36% - Rogers 33%)

LANSING, Mich. — Former President Donald Trump (48.2%) has a narrow point six percent lead over President Joe Biden (47.6%) in a trial ballot question for President in 2024 which is a statistical tie according to an exclusive statewide poll of Michigan conducted for **Michigan News Source** by **Mitchell Research & Communications, Inc.** on June 3, 2024, after former President Trump was found guilty of 34 criminal charges in New York. Four-point two percent are undecided.

In a five-way trial ballot test Trump (46.3%) and Biden (45.1%) are separated by just one point two percent followed by Natural Law Party candidate Robert F. Kennedy (3.3%), Green Party candidate Jill Stein (0.5%) and independent Cornel West (1.1%).

“Trump’s lead has narrowed from two percent to point six percent since our last survey conducted May 20-21, 2024, before Trump’s conviction. In the May 2024 survey, Trump had solidified his base better than Biden, but post-conviction, Biden is doing slightly better with Democrats (95%) than Trump is with Republicans (93%). Trump has dropped from 9% to 4% with Democrats while Biden has gone from 4% with Republicans to 5%. Trump now leads with Independents 47% - 40%” Steve Mitchell president of Mitchell Research & Communications, Inc. said.

The race continues to narrow since the March 15-16 poll when Trump led by three percent in a two-way race and two percent in a 5-way race. Trump now leads by point six percent in a two-way race and one point two percent in a 5-way race.

In the US Senate race, Elissa Slotkin’s lead has narrowed from 40% – 36% against Mike Rogers to 36% -- 33%. Both candidates have dropped support from their base with Slotkin’s lead among Democrats going from 84% – 7% to 75% – 4% and Rogers lead with Republicans going from 71% –

2% to 65% – 2%. There has been a change in Independent support, Rogers now leading 32% – 30% while he trailed with Independent two weeks ago at 30–27%.

In addition to the General Election trial ballot test between the two front runners, Slotkin and Rogers, we also asked trial ballot questions in the Democratic and Republican Primary Election for US Senate.

In the Democratic Primary Slotkin (53%) has a huge lead over Hill Harper (8%) and Nasser Beydoun (1%). (N=266)

In the GOP Primary Mike Rogers (28%) has a solid lead over Justin Amash (8%), Sandy Pensler (3%), and Sherry O'Donnell (0%). (N=268).

“Pensler, who has spent at least three million dollars attacking Rogers still has not been able to gain any traction.”

Voter Enthusiasm for 2024 General Election

- There has been a big increase in overall voter enthusiasm since the Trump conviction. However, there continues to be an enthusiasm gap between Republicans and Democrats, and Trump and Biden voters. Overall, the percentage that says “very enthused” has increased from 56% to 74%.

By party:

- By a seven percent margin more Republicans (82%) are “very enthusiastic” than Democrats (75%). Less than half of independents (45%) are “very.”
- More than eight-in-ten Trump voters (84%) are “very” compared to just seven-in-ten (70%) Biden voters.
- This could pose a real problem to Democrats in November if it stays this way.
